Comprehensive Coho Workgroup

Comprehensive
Coho
Management
Plan

Second Interim Report
May 5, 1998

Prepared by:
Puget Sound Treaty Tribes
Washington Department of Fish and Wildlife

Table of Contents

1.0 Introduction	1-1
1.1 Historical Development	1-2
1.2 Characteristics.....	1-3
1.3 Current Status.....	1-3
2.0 Technical Basis	2-1
2.1 Habitat and Natural Production	2-1
2.2 Artificial Production	2-2
2.3 Fishery Management.....	2-3
2.4 Plan Characteristics.....	2-5
3.0 Plan Components	3-1
4.0 Management Units	4-1
5.0 Abundance Breakpoints	5-1
5.1 Key Wild Management Units	5-1
5.2 Auxiliary Management Units.....	5-3
5.3 Secondary Management Units (Wild and Hatchery).....	5-3
6.0 Habitat Management	6-1
6.1 Habitat Policies, Performance Measures, and Action Strategies.....	6-2
6.2 Watershed Inventory and Assessment	6-18
6.3 Watershed, Landscape, Recovery, and Conservation Plans	6-19
6.4 Coho Salmon Habitat and Production Model	6-20
7.0 Artificial Production	7-1
7.1 Definitions.....	7-1
7.2 Categories of Artificial Production.....	7-2
7.3 Relationship to Other Components of CCMP	7-2
7.2 Equilibrium Production Levels.....	7-3
8.0 Exploitation Rates	8-1
8.1 Key Wild Management Units	8-1
8.2 Auxiliary Management Units.....	8-3
8.3 Secondary Management Units	8-3
9.0 Fishery Regimes	9-1
9.1 Switching Rules and Active Management.....	9-1
9.2 Base Fishing Regimes.....	9-1
9.3 Annual Application of Fishing Regimes.....	9-2
9.4 Inseason Adjustment.....	9-3
10.0 Monitoring and Research	10-1
10.1 Monitoring Programs	10-1
10.2 Research and Data Needs.....	10-1
11.0 Implementation	11-1
11.1 Annual Stock Status Review.....	11-1
11.2 Annual Plan Review	11-2
11.3 Six Year Plan Review	11-3
12.0 References	12-1

List of Tables

Table 1. Classification of Puget Sound management units.....	4-3
Table 2. Provisional escapement breakpoints, target exploitation rates, and tolerance ranges for the key wild management units.....	5-4
Table 3 . Four major categories of artificial production programs. Shaded category indicates primary benefit of program is supplementation.	7-2
Table 4. Escapements and exploitation rates for the key wild stocks that trigger a stock status review. Criterion 3 is not included because the trigger values will depend upon the target exploitation rates in each of the nine years comprising the review period.	11-2

List of Figures

- Figure 1. Influence diagram for coho salmon production..... 7-3
- Figure 2. Example of target exploitation rates, tolerance range (shaded area), and the resulting range in escapement and catch for the Skagit key wild management unit. 8-4

List of Appendices

- Appendix 1. Methods for computing abundance breakpoints and target exploitation rates
- Appendix 2. Ongoing Fishery Research and Resource Monitoring
- Appendix 3. Research and Data Needs
- Appendix 4. Equilibrium Brood Production Levels

List of Acronyms

CCMP	Comprehensive Coho Management Plan
CCW	Comprehensive Coho Workgroup
CWT	Coded-wire-tag
ESU	Evolutionary Significant Unit
MSH	Maximum Sustainable Harvest
NMFS	National Marine Fisheries Service
PSSMP	Puget Sound Salmon Management Plan
PSSSRG	Puget Sound Salmon Stock Review Group
SASSI	Salmon and Steelhead Stock Inventory
SSHIAP	Salmon and Steelhead Habitat Inventory and Assessment Project
WDFW	Washington Department of Fish and Wildlife
WRIP	Watershed Restoration Diversity Report
